* The OCF (Ongoing Charges Figure) is the total expenses paid by the fund (excluding bank overdraft interest), annualised, against its average net asset value. The OCF will fluctuate as the average net assets and costs change. The OCF is updated following the publication of accounts for the periods ending 30th June and 31st December.

[^] The PTR (Portfolio Turnover Ratio) has been calculated in accordance with the methodology laid down by the FCA. This compares the total share purchases and sales less total creations and liquidations with the average net asset value of the fund.

> 7 Day Fund Liquidity is calculated based upon 30% of trailing 20 day average volume.

< Gross Yield reflects the historic dividend income received by the fund in the preceding 12 months before the deduction of all expenses including management fees. Net yield is Gross Yield less the deduction of all expenses including management fees i.e. Gross Yield less the OCF.

Investment Objective

The Company will invest in equities on a global basis. The Company's approach is to be a long term investor in its chosen stocks. It will not adopt short-term trading strategies. The Company has stringent investment criteria which the ACD and Investment Manager adhere to in selecting securities for the Company's investment portfolio. These criteria aim to ensure that the Company invests in high quality businesses which in the opinion of the ACD and Investment Manager are those:

- ▶ high quality businesses that can sustain a high return on operating capital employed;
- ▶ businesses whose advantages are difficult to replicate;
- ▶ businesses which do not require significant leverage to generate returns;
- ▶ businesses with a high degree of certainty of growth from reinvestment of their cash flows at high rates of return;
- ▶ businesses that are resilient to change, particularly technological innovation;
- ▶ businesses whose valuation is considered to be attractive.

Investors should be aware that the application of these investment criteria significantly limits the number of potential investments for the Company's portfolio. It is envisaged that the investment portfolio will be concentrated, generally comprising between 20 and 30 stocks. The Company will not invest in businesses which have substantial interests in any of the following sectors:

- ▶ Aerospace and Defence
- ▶ Metals & Mining
- ▶ Casinos and Gaming
- ▶ Gas and Electric Utilities
- ▶ Oil, Gas and Consumable Fuels
- ▶ Brewers, Distillers and Vintners
- ▶ Pornography
- ▶ Tobacco

In addition, the ACD and the Investment Manager apply further criteria to screen investments in accordance with the ACD's sustainable investment policy. The ACD evaluates sustainability in the widest sense, taking account not only the companies handling of environmental, social and governance policies and practices but also their policies and practices on research and development, new product innovation, dividend policy and the adequacy of capital investment.
