Investment Objective

The Company will invest in equities on a global basis. The Company's approach is to be a long term investor in its chosen stocks. It will not adopt short-term trading strategies. The Company has stringent investment criteria which the ACD and Investment Manager adhere to in selecting securities for the Company's investment portfolio. These criteria aim to ensure that the Company invests in high quality businesses which in the opinion of the ACD and Investment Manager are those:

- ▶ high quality businesses that can sustain a high return on operating capital employed;
- ▶ businesses whose advantages are difficult to replicate;
- ▶ businesses which do not require significant leverage to generate returns;
- ▶ businesses with a high degree of certainty of growth from reinvestment of their cash flows at high rates of return;
- ▶ businesses that are resilient to change, particularly technological innovation;
- ▶ businesses whose valuation is considered to be attractive.

The Company will not invest in businesses which have substantial interests in any of the following sectors:

- ▶ Aerospace and Defence
- ▶ Brewers, Distillers and Vintners
- ▶ Casinos and Gaming
- ▶ Gas and Electric Utilities
- ▶ Metals & Mining
- ▶ Oil, Gas and Consumable Fuels
- ▶ Pornography
- ▶ Tobacco

In addition, the ACD and the Investment Manager apply further criteria to screen investments in accordance with the ACD's sustainable investment policy. The ACD evaluates sustainability in the widest sense, taking account not only the companies handling of environmental, social and governance policies and practices but also their policies and practices on research and development, new product innovation, dividend policy and the adequacy of capital investment.

Principal Risks

- ▶ **Currency Risk:** The fund's portfolio is a global portfolio and many of the investments are not denominated in Sterling. There is no currency hedging made by the fund. The Sterling price of the shares may therefore rise or fall purely on account of exchange rate movements.
- ▶ **Concentration Risk:** The fund's portfolio complies with the UCITS requirements on spread of investment. Having said that, application of the investment criteria described above significantly limits the number of potential investments: the fund generally invests in 20 to 30 stocks and so it is more concentrated than many other funds. This means that the performance of a single stock has a greater effect on the price of the fund.
- ▶ **Operational Risk:** Failures or delays in operational processes may negatively affect the fund.
- ▶ **Sustainability risk:** The Fund is subject to the risk that environmental, social or governance conditions or events may occur that may have a material negative impact on the value of its investments.
- ▶ **Risks inherent in the holding of shares:** There is no assurance that any appreciation in the value of investments in Shares will occur. The Net Asset Value per Share is expected to fluctuate over time with the performance of the fund's investments. A Shareholder may not fully recover his initial investment when he chooses to redeem his Shares or upon compulsory redemption, if the Net Asset Value per Share at the time of such redemption is less than the Subscription Price paid by such Shareholder or if there remain any unamortised costs and expenses of establishing the fund. An investment in Shares should only be made by those persons who are able to sustain a loss on their investment. The Shares should be viewed as long term investments (at least 5 years).

Simulated return prior to 31.10.17

" Active Share measures how much the portfolio holdings differ from the benchmark index (MSCI World) i.e. a portfolio that is identical to the benchmark would have 0% active share.

* The OCF (Ongoing Charges Figure) is the total expenses paid by the fund (excluding bank overdraft interest), annualised, against its average net asset value. The OCF will fluctuate as the average net assets and costs change. The OCF is updated following the publication of accounts for the periods ending 30th June and 31st December.

^ The PTR (Portfolio Turnover Ratio) has been calculated in accordance with the methodology laid down by the FCA. This compares the total share purchases and sales less total creations and liquidations with the average net asset value of the fund.

> 7 Day Fund Liquidity is calculated based upon 30% of trailing 20 day average volume.

< Gross Yield reflects the historic dividend income received by the fund in the preceding 12 months before the deduction of all expenses including management fees. Net yield is Gross Yield less the deduction of all expenses including management fees i.e. Gross Yield less the OCF.

N.B. When a position is being built for the fund the company name is not disclosed in factsheet data.

Disclaimer: A Key Investor Information Document and an English language prospectus for the Fundsmith Sustainable Equity Fund are available via the Fundsmith website or on request and investors should consult these documents before purchasing shares in the fund. Past performance is not necessarily a guide to future performance. The value of investments and the income from them may fall as well as rise and be affected by changes in exchange rates, and you may not get back the amount of your original investment. Fundsmith LLP does not offer investment advice or make any recommendations regarding the suitability of its product.

The past performance shown prior to November 2017 is based on simulated returns of a more concentrated segregated account run for a single client adjusted to show total return, ex cash with dividends reinvested pari passu. Simulated past performance is not a reliable indicator of future performance, in particular the segregated account was more concentrated than will be permissible for the Fundsmith Sustainable Equity Fund. The value of investment and the income from them can fall as well as rise. You may not get back the amount originally invested. This document has been issued and approved by Fundsmith LLP which is authorised and regulated by the Financial Conduct Authority.
