Equity Fund Aim

The Company will invest in equities on a global basis.

The Company's approach is to be a long-term investor in its chosen stocks. It will not adopt short-term trading strategies.

The Company has stringent investment criteria which the ACD, as investment manager, adheres to in selecting securities for the Company's investment portfolio. These criteria aim to ensure that the Company invests in:

- high quality businesses that can sustain a high return on operating capital employed;
- businesses whose advantages are difficult to replicate;
- businesses which do not require significant leverage to generate returns;
- businesses with a high degree of certainty of growth from reinvestment of their cash flows at high rates of return;
- businesses that are resilient to change, particularly technological innovation;
- businesses whose valuation is considered by the Company to be attractive.

Investors should be aware that the application of these investment criteria significantly limits the number of potential investments for the Company's portfolio. It is envisaged that the investment portfolio of the Company will be concentrated, generally comprising between 20 and 30 stocks.

The Company will not invest in derivatives and will not hedge any currency exposure arising from within the operations of an investee business nor from the holding of an investment denominated in a currency other than sterling.

Portfolio Comment for February 2013

During the month we completed the sale of our holding in Serco, the outsourcing company. Serco's acquisition of an Indian Business Process Outsourcing ("BPO") business and ambitions to grow in this area had in our view changed its working capital needs and cash flow profile so as to make its shares look unattractive on valuation grounds compared with others in our Investable Universe.

The top 5 contributors in the month were Becton Dickinson, Automatic Data Processing, Reckitt Benckiser, 3M and Domino's Pizza. The top 5 detractors in the month were Swedish Match, Dr Pepper Snapple, Serco, Sigma-Aldrich and Visa.

Top 10 Holdings

- Stryker
- Dr Pepper Snapple
- Domino's Pizza
- Reckitt Benckiser
- Automatic Data Processing
- Becton Dickinson
- Imperial Tobacco
- Microsoft
- Unilever
- Intercontinental Hotels

Our Values

- No performance fees
- No initial fees
- No redemption fees
- No overtrading
- No leverage
- No shorting
- No hedging
- No derivatives
- No over diversification
- No closet indexing
- No lack of conviction
- No other equity strategies

Just a small number of high quality, resilient, global growth companies that are good value and which we intend to hold for a long time, and in which we invest our own money.

^{*} The OCF (Ongoing Charges Figure) is the total expenses paid by the fund (excluding bank overdraft interest), annualised, against its average net asset value. The OCF will fluctuate as the average net assets and costs change. The OCF is for the year ended 31 December 2012.

[^] The PTR (Portfolio Turnover Ratio) has been calculated in accordance with the methodology laid down by the FSA. This compares the total share purchases and sales less total creations and liquidations with the average net asset value of the fund.

An English language prospectus for the Fundsmith Equity Fund is available on request and via the Fundsmith website and investors should consult this document before purchasing shares in the fund. Past performance is not necessarily a guide to future performance. The value of investments and the income from them may fall as well as rise and be affected by changes in exchange rates, and you may not get back the amount of your original investment. Fundsmith LLP does not offer investment advice or make any recommendations regarding the suitability of its product. This financial promotion is intended for UK residents only and is communicated by Fundsmith LLP which is authorised and regulated by the Financial Services Authority.
